

SGA Leadership Conference

Non-Smoking/Smoking Policy

Student and staff cooperation in following Horizons Consulting and The Outdoor Learning Center at Horizons Non-Smoking/Smoking Policy is needed to protect our structures, the forest around our camp, and to protect the homes and workplaces of many people living in the area.

Please talk to your students **prior to their arrival** about the seriousness and purpose of our smoking prohibitions.

Consequences: If holding students to the policy becomes a problem at any time during the upcoming conference, we may ask one or more SGA Advisors to collect all of their students' cigarettes and distribute to be used only at the main dining hall.

Horizons Consulting and The Outdoor Learning Center's Non-Smoking/Smoking Policy:

- Smoking is only permitted where ash cans are present. Watch your ash – don't flick your ash. Put cigarettes out in provided ash cans only.
- **NO** smoking is allowed:
 - in any of The Outdoor Learning Center's buildings (including the bathrooms),
 - walking through the woods,
 - at the high ropes, or
 - any place where there is no ash can.
